### *About Charlotte Shanti*

*Charlotte Shanti has in collaboration with lightship City of Light created Energy Frequency Tuning, which is a new way to harmonize, balance, transform, heal, activate in the 5th dimension of the Golden Age. Charlotte Shanti works with telepathy, channelling and clairvoyance.*

*Energy Frequency Tuning is a new direction that emphasizes supporting the many people who in these years transform energies and frequencies in the 3rd and 4th dimension to the 5th dimension and higher, and the many children born today in a higher dimension than 3rd and 4th dimension.*

*She works as City of Light Golden Age Transformation Teacher and has created the course Golden Age Master Class for anyone using muscle testing or dowsing wishing to level up to dimensional energies and frequencies.*

*She resides in Denmark close to nature in a 160 year old school building in the outskirts of a nature reserve by the sea with her family and Border Collie.*

*She has always been spiritually curious and engaged in the question “Who am I”. This has led her on 16 travels to India and other spiritually highly vibrant places like Tibet, Greenland and Kauai, Hawai’i.*

*From 1996 to 2006 she was actively involved in the Sathya Sai Organization working for the Danish international leaders and teaching children human values as a Bal Vikas Guru. She was also a bhajan musician playing the tabla with her music group Divine Light. In 2001 she played a concert for Guru Poornima in the Poornachandra Hall, Puttaparthi, in the presence of Sathya Sai Baba.*

*Since 2012 she has worked as a professional kinesiologist utilizing many different modalities with a particular focus on allergies and EHS (electromagnetic hypersensitivity).*

*In 2014 she was involved in opening a portal to the Golden Child Energy, which led her to the ethereal community City of Light. With a new found passion for the dimensional system she began teaching her own courses integrating ascension spirituality and traditional kinesiology.*

*She is a professional kinesiologist & educator and member of the International Association of Specialized Kinesiologists (IASK) and has created her own courses “Coded Crystal Tools Ascension Balance”, “Coding Test Kits and Energy Medicine” and “Pollen Allergy Test Kit”.*

### *What is coding and why do we use coding?*

*Since 2015 a stream of high energy frequency coded crystal tools have emerged from our collaboration with the beings in 5D lightship City of Light.*

*All our crystal tools are coded with technology from Atlantis, Lemuria and other places where we worked together with crystalline beings to enhance Peace, Love and Light.*

*NOW we are beginning to remember our inherent abilities from those lifetimes through the present opening of 20 dimensions, 12 chakra, 27 meridians, 12 DNA, 15 rays through the ascended masters, our individual 5D merkaba ascension lightship and many many other systems.*

*The systems each maintain important functions and when they are fine-tuned and connected our human existence connects to and integrates with our divine being. Thus opening up to all our inherent abilities.*

### *Benefits of Coded Crystal Tools from 5D lightship City of Light*

- *Harmonize*
- *Balance*
- *Transform*
- *Heal*
- *Activate*
- *Connect you*
- *Lead you through processes*
- *Fine-tune*
- *Integrate*
- *Elevate your vibration*
- *De-stresses your energy system*
- *Offer spiritual guiding*
- *and much more*

*The crystal tools are coded to fit any energy system wishing to level up to the energies and frequencies of the coming Golden Age.*

*We never experience ascension symptoms using the coded crystal tools as they respect your boundaries and naturally communicate with and collaborate with all the energies and frequencies your being consists of.*

*So these are loving crystal tools meeting you where you are and gently - but firmly - leading you further on your ascension.*

*If you are uncertain or just curious which crystal tool might benefit you NOW. You are welcome to contact me for a free kinesiology test or ask my advice in 5D lightship City of Light.*

*We wish for you to enjoy your ascension in balance with the high-frequency multidimensional crystal tools.*

### **Lord Ashtar Transmission**

*"5D lightship City of Light work closely together with Ashtar who is a coding expert. Ashtar draws on knowledge about coding from many beings and traditions from across the universe. He combines this with his own comprehensive knowledge to make energies and frequencies available to humanity.*

*Not all energies and frequencies are readily suitable for humanity. Some create dissonance and this is where the coding comes into the picture. In the City of Light coding process energies and frequencies are transformed so that they bring resonance. The quality of the coding is of great importance to enhance balance, harmony and stability.*

*In brief the coding for instance involves storing energy and information in a crystal. This crystal is activated when it comes into contact with a human who needs to be integrated with the oscillations of the crystal. This creates resonance and hence balance, harmony and stability.*

*The coded crystal from the cooperation between City of Light and Ashtar are of very high quality and strength. They meet man where he is in his development, and support him gently on his path.*

*The crystals do not need to be maintained in any way. They recharge themselves and retain their strength no matter how many people connect with them. As mentioned before the crystal is only activated when needed.*

*The crystals work together when you have more crystals gathered in your hand or in your pocket. Cooperation is absolutely fundamental in the City of Light and it is reflected in the coded crystals.*

*Ashtar greets you from inside the 5D lightship City of Light, and invites you to cooperate with the coded crystals."*

### **About Ascension**

*We have all heard about the Age of Aquarius that sparks the beginning of the New Age movement.*

*The New Age movement has grown rapidly and has transformed into the Ascension movement, which also includes the idea that we all are star beings and potentially multi-dimensional.*

*The 5th dimensional Age of Aquarius is an astrological term and describes an age we are currently moving into leaving the 4th dimensional Age of Pisces, that has been dominant for 2160 years. The change of astrological age happens when the Sun moves into a new constellation. Since 2020 the 5th dimensional Age of Aquarius has gained momentum and in 2023 this will accelerate with the arrival of Pluto in Aquarius, which happens around April 2023.*

*It is not certain when the true Age of Aquarius begins, but the impact on humanity, earth and all its beings is said to be tremendous and lead to unity. It should involve humans beginning to understand themselves and their place in the universe on a higher level.*

*In order to understand more about the coming Age of Aquarius or Golden Age as it is called in Ascension I have asked the Pleiadians in the 5th dimension where the Golden Age is unfolding. The following is the transmission where The Pleiadians describe what we may expect when we consciously enter the 5th dimension:*

### **Pleiadian Transmission**

*"We are the Pleiadians.*

*We bring life, joy and movement.*

*We follow the movements of the universe and know of the deep insights that lie in the cohesion we have with everything and everyone in this universe.*

*Everything and everyone are connected with each other.*

*All existence and all energy have a justification. Our mindset is inclusive and open to cooperation.*

*Not everything and everyone follow their predetermined paths and true life mission. This creates turmoil in the system.*

*Our primary task is to help and support flow in the system and show everything and everyone how to adjust to the flow.*

*We help everything pulsate in a nourishing and beneficial pattern for you and connects it to the rhythm of the universe.*

*Welcome to the Pleiades. Move with us in the rhythmic universal dance."*

### **20 Dimensions**

*In 2015 Charlotte Shanti started receiving insights from lightship City of Light about the 20 dimensions that are now open. She has coded a high frequency 5D crystal tool for each dimension in 5D lightship City of Light.*

### **Grounding Balance**

*Stay grounded during your travels through the dimensions. A tiger eye is coded with the dimensions. The dimensions are your layers of your consciousness. Grounding means that you stand with your legs firmly planted on mother earth while you reach high up in the clouds fully balanced.*

*In each dimension we have qualities and special abilities that we need on Ascension. The purpose is to become multi-dimensional and thereby conscious of our true origin and life purpose on earth. Many experience acceptance of their life mission on earth and a greater understanding of themselves and other beings as they become multi-dimensional.*

*Through the work and balancing with the coded crystal, your Merkaba is upgraded to the Golden Age edition whereby you can move freely in all dimensions.*

*Many years ago, it was natural for the people on earth to move freely in all dimensions and draw on the knowledge and energy that lies there. Meanwhile, the earth and humans have been enveloped in a veil that has covered these truths and energies.*

*The dimensions are now again available and City of Light therefore wants to show the way to the multi-dimensional self through the coded crystal. City of Light offers a neutral energy that everyone can work under and which gives you protection on the journey through the dimensions.*

## 2nd Dimension Expansion BOOST

*BOOST crystal tool balances your expansion in each cell with high frequency energies from the lightship City of Light in the 5th dimension of the Golden Age. Everything grows and expands on a micro, macro and cosmic level. To keep up it is important that you are nurtured and nourished with vitamins, minerals and high-frequency energy.*

*The BOOST crystal tool consists of an vial with mini crystals and a golden bag with mini crystals coded in City of Light in the 5th dimension. Each of the mini crystals represents a group of starbeings that cooperate in the etheric community City of Light. The City of Light community finds out what you need each day to stabilize your expansion. They send this to your light body directly from inside the City of Light in the 5th dimension as a high frequency energy BOOST. You do not need to do anything or have special abilities to receive your daily boost. It all happens automatically just by wearing the crystal tool. City of Light has a deep desire to help the earth and its beings. If you wish to feel / experience the daily high frequency energy BOOST you can sit or lie down for 30 min. and connect with City of Light by holding the BOOST crystal tool in your hand saying Yes, I would like to receive a BOOST from City of Light.*

*City of Light Scandinavia is an ethereal community that works from the Golden Child energy in cooperation, openness and what you are. Inside the City of Light, starbeings and other beings meet to collaborate and exchange in order to offer humanity and the earth the best energies and frequencies. City of Light maintains the Golden Age light network. Through this, City of Light collaborates with many other lightships and ethereal communities.*

## 3rd dimension Pleiade Life on the Surface of Earth

*3rd dimension is your physical body and life on the surface of earth where we humans live with other biological plants and animals.*

*We live on earth in a linear time-based reality, where we follow the change of seasons and the movement of the planets in the sky.*

*The earth has in many ways lost this sense of direction and may appear shaken and confused. Help the earth in complete balance with the directions north, south, east and west in the same way that indigenous peoples and shamans have worked since time immemorial.*

When you place this coded crystal tool on the body, geometric patterns are transmitted that correspond to the energy or frequency that is being worked with. This means that the change at some point reaches the physical body in the 3rd dimension.*

*Support for mindfulness and creative projects. Creativity means that everything is put into play and used in new ways. It is a process where all your abilities both known and unknown are used. The crystal tool consists of endless empty spaces with creative energy. Each room is a project. You fill the spaces yourself with ideas - big and small - thoughts, desires and intentions. Where there are limitations you are softly supported by the Anchor crystal tool to overcome them.*

*Remember that not all projects are meant to be realized. It may be that some projects need to be changed or implemented in another project. The energy from the crystal tool will help you realize when this is the case. Then work on a new project starts in a new room in the crystal tool. Sometimes you have to go through 2-3 project ideas before the durable idea arises.*

*When thoughts and ideas are thus put into the many room of the crystal tool, it causes thoughtfulness or mindfulness to arise. This reduces stress.*

*The crystal tool is particularly suitable for people who suffer from stress due to thoughts, worries and limiting thoughts. The creative energy in the crystal tool helps the person to see openings in thought processes. In this way a mental space is created for change.*

*The crystal tool is also suited for creative people juggling many ideas and intuitive influences. *The Anchor Activation Set consists of*

- *a powerful activation and mindfulness process on video. Dil, who is the anchor for Golden Child Energy, guides you through the process which lasts for 20 min. The underlying music is also created by Dil and is a unique musical description of the Golden Child energy in 432 Hz which creates a very deep connection into your own inner self and who you are.*
- *an Anchor mindfulness exercise for .pdf download. The text is used in the video.*
- *a high-frequency coded Anchor crystal tool from City of Light in the Golden Age 5th dimension with Golden Child Energy.*

*You can repeat the Anchor activation that as often as you like or for instance once a week for 5 weeks, carrying Anchor in your pocket at the same time.*

*Anchor is support for mindfulness and creative projects. Creativity means that everything is put into play and used in new ways. It is a process where all your abilities both known and unknown are used. The crystal tool consists of endless empty spaces with creative energy. Each room is a project. You fill the spaces yourself with ideas - big and small - thoughts, desires and intentions. Where there are limitations you are softly supported by the Anchor crystal tool to overcome them.*

*Remember that not all projects are meant to be realized. It may be that some projects need to be changed or implemented in another project. The energy from the crystal tool will help you realize when this is the case. Then work on a new project starts in a new room in the crystal tool. Sometimes you have to go through 2-3 project ideas before the durable idea arises.*

*When thoughts and ideas are thus put into the many room of the crystal tool, it causes thoughtfulness or mindfulness to arise. This reduces stress.*

*The crystal tool is particularly suitable for people who suffer from stress due to thoughts, worries and limiting thoughts. The creative energy in the crystal tool helps the person to see openings in thought processes. In this way a mental space is created for change.*

*The crystal tool is also suited for creative people juggling many ideas and intuitive influences. It is a crystal tool for project development that helps keeping track of all whims - large and small. It provides creative feedback that can lead projects towards innovation and potential brilliance.*

### **Golden Child Energy Frequency Coding Tool**

*Coding Tool to make your own energy medicine and test kits. There are two different descriptions of the Coding Tool:*

- 1. For Kinesiologists*
- 2. For Star Seeds*

#### *Description for Kinesiologists & other therapists*

*This coding tool is made for all therapists who wish to code their own test kits and energy medicine. The coding tool has been developed by Charlotte Shanti.*

*With this coding tool you may code frequencies in vials for test kits and code energy medicine in crystals with Golden Child Energy. The coding tool is seen from The Golden Age energy understanding in the 5th dimension.*

*You will learn a whole new way to make advanced test kits.*

- 1. You can for instance make a single test set that contains all vitamins and minerals instead of having many different test kits from various companies. Once you have found out which vitamins and minerals the client needs you test whether the person needs it physically, as homeopathy or via energy medicine, that you can code with the coding tool.*
- 2. You can code one vial with herpes and it will contain the known 8 variations plus the unknown variations. Some of the unknown variations have been described by Anthony William. In this way you will reach unlimited layers in for instance herpes.*
- 3. The advanced coding includes a new kinesiology method I call provocation, which allows you to test and balance a specific topic several times and reach deeper layers in one session.*
- 4. You can use the light in vial method to transfer frequencies to the client. The coding automatically selects the frequency or frequencies that are beneficial and balancing to the client.*
- 5. You can code homework in a crystal for the client.*

*The coding tool has been approved by Danish Kinesiologists*

*Supervised training can be ordered from Charlotte Shanti or you can join a workshop.*

#### *Description for Star Seeds*

*With the Golden Child Frequency coding tool that I have developed in the etheric City of Light you can code your own Energy Medicine. The coding tool comes with an easy-to-follow guide in English. You can use the coding tool to encode high-frequency energy medicine in crystals. You can use your crystals again and again to encode new compositions of energies. The coding tool can also be used to encode crystals with energies such as Star and Planet energies, Lord Ashtar, Archangels, Unicorns - in fact, you can encode everything you can imagine between heaven and earth.*

*In the golden age we open up even more energetic layers in our individual reality. With the coding of frequencies we can reach these invisible layers in ourselves and our clients. They are not easily accessed through things we ingest in the body. The process is too long before it reaches the invisible layers. The direct path is through energy medicine.*

*For some years I have coded crystals, water and globuli with the help of the Golden Child energy for my clients as a support in their individual process. I have also coded my own test kits. The pollen test set among others that appeared in 2017. My experience is that it is a great support for the clients. Therefore, my desire to pass the method on arose so that everyone can create powerful codings for themselves and others.*

*To make the technique easy and accessible to everyone, the idea for me was to develop and code a set of coding plates that others can use to code. These plates, which are embossed with the Golden Child energy in the City of Light, work differently from the methods previously available here on earth. The new thing is that the coding is an organic process and that there is intelligence behind it whom we can communicate with during the coding.*

### **Andromeda Energy Frequency Bouncer**

*This crystal tool is coded in a malachite.*

*It works as an advanced shield for your energy system. With the help of intelligence from the ethereal community of City of Light it regulates the energy and frequency exchange (communication) in your relationships. Your sensitivity will relax and you will get more room to be exactly who you are. You get a lot more air and space around you.*

*The crystal tool is designed to those who are influenced by the energy of others and those who do not understand why you are met with for instance anger, rejection or not being taken seriously by other people even if you emit the best intentions and finest energies.*

*By using this crystal tool, you can gain new insights about yourself and learn to understand your sensitivity from a new angle. The new thing is that the crystal tool sends unwanted energy back to the sender along with an energetic explanation of why you are sending the energy back. At the same time it receives the energy or frequency others send back to you and it helps you understand why it was sent back. It translates the message into something you can handle and relate to.*

### **Other Coded Crystal Tools**

#### **12 Chakra Balancing**

*A rhodonite is coded to balance the Golden Age 12 chakra system with the masculine Archangel Metatron for Stellar Gateway chakra and the feminine Archangel Sandalphon for Earth Star chakra. Note that the Archangel Sandalphon has so far been known as a masculine energy. In the Golden Age, the energy emerges as feminine.*

*When working with the 12 chakra coded crystal, your chakras are not opened, but they are balanced to make sure everything is as it should and prepare for opening when the time is right. The chakras that are already open are cleaned and finely tuned. Those who work with the coded crystal may feel an increased energy flow due to this fine tuning.*

*The 12 chakras fit the new era's 5th dimension energy system. After the Atlantis era, 5 of the 12 chakras were shut down. This happened because the earth changed vibration to the 3rd dimension. Now the 5th dimension consciousness is open again and as a consequence also the 12 chakras.*

*The 7 chakra system has been operating for millennia based on the physical and earthly 3rd dimensional energies. It is a one size fits all chakra system with a fixed shape without many opportunities for individuality and with a risk of imbalances in the energy flow, which, among other things, was a problem that could lead to Kundalini problems.*

*The 12 chakra system is an open and creative chakra system that is completely adapted to the individual needs and individual abilities on the spiritual path. It really supports the individual personal awakening and realization.*

*The 12 chakra system can easily be connected to the other energy systems we use in the 5th dimension: The twelve dimensions (Grounding Balance crystal), 27 meridians (the Meridian crystal) and the Total Balance crystal, that connects the energy systems with each other and provide personal protection . In this way, the free flow of energy is supported.*

*The transition from the 7 to 12 chakras occurs automatically when the individual follows the ascension path - consciously or unconsciously - and develops his lightbody. The 12 chakras begin to open and function when the individual contains at least x% light. It is individual how many percent of the light the individual must have.*

*The entrance to the 12 chakras is heart chakra, nourished by the energy we know on earth as the Christ energy. 2000 years ago, the Andromeda galaxy sent this energy to the earth, which was designed to open the heart of man to pave the way for Ascension. During the 2000 years the energy has worked on the earth, it has assumed many forms and not many know the original energy as it is emitted from the Andromeda Galaxy.*

*The Earth energy system is continuously upgraded. The energy is transmitted to the individual via the 12 chakra system with the masculine Archangel Metatron for the Stellar Gateway chakra and the feminine Archangel Sandalphon for the Earth Star chakra through the network of energy that surrounds the earth. With the opening to the 12 chakras, we get a grounding that goes deep into the ground and far up to the center of the universe.*

*Some people have already entered their 5th multi dimension reality and have taken their 12 chakras into use. Others stand in the 3rd or 4th dimension with 7 chakra and are uncertain of the new reality. At that stage, I find that many use both the 7 chakra system and the 12 chakra system simultaneously*

*until they, with their consciousness, release the 7 chakra system and become fully synchronized with the 12 chakra system.*

#### *AA Metatron and Sandalphon Transmission*

---

*"The universe is large and there is energy everywhere.*

*Energy moves quickly from one end of the universe to the other.*

*You can move energy by the power of thought.*

*In order to get energy to flow freely, a flow is needed where there is a sender and a recipient.*

*We are the sender of the energy of the 12 chakra system and the earth and its beings are the recipients.*

*We communicate the energy to earth and it is passed through the 12 chakra system to the individual.*

*The frequency of earth, which is controlled by Gaia, is refined and raised all the time.*

*The energy is equal parts masculine and feminine. It is like us - the union of the masculine Metatron and the feminine Sandalphon. We are in perfect balance and the balance is also passed through the 12 chakra system.*

*We are Metatron and Sandalphon and we greet you."*

##### **5G protection and natural balancing**

*City of Light in the 5th dimension has in collaboration with Lord Ashtar transmitted a multidimensional coding with the frequency range of 5G.*

*When you wear the coded necklace around your neck it works energetically on your physical body and in your ethereal aura field.*

*Earth is increasingly exposed to technological frequencies that do not carry natural life. When the biological frequencies of our bodies meet these technological frequencies the natural balance is shaken.*

*The coding from the City of Light teaches your natural biological frequencies to recognize and co-exist with the 5G technology frequencies.*

*Note that there may be deeper reasons for you to respond to 5G technology such as EHS or allergies. If so, it may be a good idea to book a time for a kinesiology session to be balanced for this as well. Book a zoom session by writing to me at [kontakt@city-of-light.dk](mailto:kontakt@city-of-light.dk)*

The Ascension Balance coded crystal tool set from City of Light consists of

- Anchor supports mindfulness, meditation and creativity
- Total Balance provides personal protection
- 12 Chakra Balance Balances the 12 Chakra system
- Meridian Balance performs acupuncture with light in 27 meridians

They work by stimulating and balancing what has already been opened by the individual by personal spiritual work. This means that nothing is opened or added from outside, but you are balanced, strengthened, and encouraged to continually seek out new truths in your mind and thereby progress on your spiritual path.

The 6 coded crystal tools are used separately or together as an Ascension Balance set. They support and develop therapists who wish to heal in the Golden Age energy systems. They make sure that the therapist is balanced at all times when working with advanced energies. At the same time, they are used to balance clients when the need arises in a session.

### **Meridian Balance**

*Balances the Meridian system and the Qi flow. The coded City of Light crystal tool balances 27 meridians and meridian points of The Golden Age meridian system.*

*For millennia, we have used the 14 meridians we know from TCM Traditional Chinese Medicine. More people are now using the new and expanded meridians. The 13 extra meridians up to 27 in total function at the ethereal level.*

*The crystal tool is used as the Golden Age light acupuncture instead of massaging the points with your fingers or using acupuncture. The crystal tool stimulates the meridian points with the neutral Golden Child energy that strengthens who you are. It is a method that is very far-reaching and that meets the person where they are. Light acupuncture works on the individuals terms and at a pace that the person can handle.*

*You can also take the stone and move it over your body and put it where it leads you. If the stone is placed at an inappropriate point on the body, it is not activated. It is able to foresee consequences. It only starts balancing when it is good for you. It stops automatically before you are overstimulated.*

*There is sound healing for the organs in the crystal tool. Organs respond and balance each with their particular sound frequency. The audio frequency in the coded crystal comes from the Andromeda Galaxy and it acts as a tuning fork that causes the organs to play in the correct key.*

*For those particularly interested, information about meridian paths and points has been added to the crystal tool. Ask the stone what you want to know and then listen in the way you can sense it.*

*It is important to drink water when using the crystal tool.*

*For some who are using the crystal tool, the symptoms disappear altogether and for others it alleviates the symptoms noticeably.*

*The crystal tool can be used by both adults, children and animals.*

#### **Power, Heart & OM Trinity Set**

*The three mini crystal tools in this powerful and important ascension set have Minimum Size and Maximum Effect.*

*You get the following 3 high frequency crystal tools that are coded in the 5th dimension in City of Light:*

### Power

---

*with Golden Child Energy coded in a carnelian. You are balanced, stabilized and strengthened in what you are. You become anchored and receive personal power in your own core.*

### Heart

---

*with Golden Age Christ coded in a rose quartz. Your heart chakra receives the heart-opening energy that we here on earth know as the Christ energy directly from the Andromeda Galaxy in its original vibration.*

### OM

---

*with Golden Sri Ganesha coded in a peace achate. The sound of creation OM is transmitted to you as the high-frequency energy of Sri Ganesha to awaken you to life and remove obstacles on your path.*

### Trinity Collaboration

---

*The three energies come together here for the first time in a Trinity and create a force field that in a fantastic way gathers you and strengthens you on your ascension. One can say that they set the framework for your ascension and bring you to the perfect flow when you lean into the energies and frequencies. They offer their help directly to you and your energy system, which in these years is undergoing a radical transformation from carbon-based energy to crystalline energy.*

*Trinity - equal cooperation between three - is one of the most powerful constellations. We know it from Brahma (creator), Vishnu (the sustainer) & Shiva (the destroyer) of Hinduism, the Father, Son and Holy Spirit of Christianity and the Dharmakāya, Sa-πÉbhogakāya and Nirmāḅ-πáakāya of Buddhism, etc.*

### Suggested use of the crystal tools

---

*When the 3 crystal tools lie together in the pink organza bag, they collaborate with each other and reach out to you to offer you the energies and frequencies you need most on your ascension right now and here. Each person has their own personal experiences as it becomes a personal process in the collaboration. When we work with crystal tools from City of Light, we are often first brought through the obstacles. Sit back in the high-frequency energies of the crystal tools and breathe through the obstacles. Feel how Golden Child, Golden Age Christ and Golden Sri Ganesha support you with the most powerful and gentle impulses and bring you to the perfect flow. Carry the pink organza bag with the 3 crystal tools in your pocket during the day and / or sleep with it at night.*

*There can be countless reasons why an energy or frequency is not itself and why it is being expelled again and again.*

*The Tibetan etheric monks, nuns and beings receive all energies and frequencies that have a genuine desire for transformation.*

*With the coded crystal tool from light ship City of Light you get the opportunity to have your energy system checked in the Tibetan School with a view to freeing your energy system from unwanted energies.*

### **Total Balance**

*This Total Balance balances heaven with earth. It balances all the impulses, thoughts and knowledge that you have in the heaven to be in relation to your earthly world, thus enabling you to put your ideas into practice.*

*Total Balance contains an advanced Tibetan energy that binds energy systems together. It binds the chakra system with the meridian system etc. When the energy flows freely between the various systems, it results in a balance that deeply strengthens and protects the person.*

*Simply put this balance looks like two number 8 bound together in energy. A horizontal number 8 (for instance the chakra system) and a vertical number 8 (for instance the meridian system). The energy flows differently from person to person, but the City of Light coded crystal finds out which way is most beneficial for you.*

*We move from functioning energetically within a single horizontal 8 to having up to innumerable pieces. 8-figures moving in individual patterns. It may eventually look like the image. Inside the center are the two connected 8s, which are currently open to most people.*

### **Venus Healing Center**

*When holding the crystal tool in your hand you are automatically led to the Venusian Healing Center. Here you will be met by the Venusians who will scan your energy system in order to find the appropriate healing for you NOW. Relax and let the Venusians offer you a high frequency healing.*

### *Moon Goddess Selena from the Pleiades*

#### *About Moon Goddess Selena from the Pleiades*

*Selena is by nature a sensitive being from the Pleiades. For centuries she has worked via the moon and sent her clear moon rays to earth to inspire us to reach for the coming Golden Age.*

*She supports your mind with clarity and purity, and your body with balancing and stabilization when many things are happening around you.*

*Selena from the Pleiades greet all lunar beings and welcome you to this new co-operation, where you meet her at a direct level without the veils of the past.*

#### *Breath of Life Enhancer*

*This selenite coded crystal tool changed appearance on 7:7:7 from Moon Goddess Selena from the Pleiades to "Breath of Life Enhancer". This sometimes happens with the coded crystal tools from 5D lightship City of Light. They transform and unfold as we are ready to accept their teachings.*

*If you already have the Moon Goddess Selena from the Pleiades coded crystal tool from before please notice that it has already received the upgrade and now works as Breath of Life Enhancer.*

### **Clearing, Cleansing, and Charging Uncoded Crystals**

*Support your uncoded crystals with this Code crystal tool by inviting them into the 5th dimensional ethereal community lightship City of Light and a reunion with their crystal community in the 11th dimension.*

*The high frequency crystal tool is coded in a selenite plate measuring 20x4x0,5 cm by Charlotte Shanti in lightship City of Light in the 5th dimension. It is in constant contact with crystal beings in the full dimensional system and does not need any maintenance. It always works 100% clearing, cleansing and charging your uncoded crystals.*

#### *Suggested use of the crystal tool*

*Place your uncoded crystals on the coded selenite plate and let them rest. Wait up to 1 minute for Moon Goddess Selene from the Pleiades to clear, cleanse and charge your crystals.*

#### *Clearing*

*Moon Goddess Selene from the Pleiades contacts the crystal beings in the uncoded crystals. She greets them and invites them to clear themselves from loneliness. She clears them with crystal water and bathe them in moonlight rays. Their personal power will quickly be restored and they will be able to stand in their own energy and clear themselves from strange energies and frequencies.*

#### *Cleansing*

*Moon rays from the full spectrum of moon phases now lights up the crystals. The vibrations remove the inharmonious energies found in the crystals and send them to the lightship City of Light for loving transformation. All energies and frequencies not belonging to the crystals are welcome.*

## *Charging*

---

*The charging phase involves restoration of the crystal beings and the traumas they have suffered. They are lovingly reconnected with their community through the dimensional system. They are no longer alone, but at part of the Golden Light Network supporting earth and its beings on Ascension.*

*When the clearing, cleansing and charging is over Moon Goddess Selene from the Pleiades includes the Sun and lightship City of Light in the 5th dimension the healing process.*

*Finally the whole dimensional system is unfolded and the uncoded crystals are truly multidimensional. This means they are able to radiate Lyra crystalline nature energies directly from the 11th dimension.*

## *Other uses for the Clearing, Cleansing & Charging crystal tool*

---

*You may use the crystal tool for anything that needs clearing, cleansing & charging as it naturally loses its power over time. This could for instance be:*

- *Angel cards*
- *Colours*
- *Conch shells*
- *Crystals uncoded*
- *Flower remedies*
- *Food frequency*
- *Herbs*
- *Homeopathy*
- *Incense*
- *Jewellery*
- *Metals*
- *Singing Bowls*
- *Talismans*
- *Tarot card*
- *Tea*
- *Vitamins and Minerals*

*The list is incomplete and the possibilities are truly endless through the dimensions.*

## *Imagine how your crystals really feel*

---

*They have been mined, transported, sold, cut, polished into a new shape, separated from their crystal community, bought by strangers in a strange new world on the surface of earth and asked to perform energies and frequencies at the demand of their owner again, again and again...*

### *You can support your crystals*

---

*You can support your uncoded crystals by clearing, cleansing and charging them together with Moon Goddess Selene from the Pleiades through the dimensions.*

*Moon Goddess Selena is by nature a sensitive being from the Pleiades. For millennia she has worked from the moon and sent its clear rays to earth to inspire us to seek the Golden Age. Now she can unfold her full energy without a filter and speak directly to you supporting your mind with clarity and purity, and your body with balancing and stability when many things are going on around you.*

*Moon Goddess Selene from the Pleiades works together with lightship City of Light in the 5th dimension with her full spectrum of moon phases. This involves a close cooperation with the Sun. A fully holistic and loving proces.*

### *Common questions*

---

*Do I also need to clear, cleanse and charge my crystal tools coded by Charlotte Shanti in lightship City of Light in the 5th dimension?*

*No, these crystal tools are always working at 100% power.*

*How often do I need to cleanse my stones?*

*Uncoded crystals are more subject to losing their power when used. The more often you use a stone, the more energy it loses. A good rule of thumb is to clear all of your stones at least once a month. If an individual stone is feeling heavier than usual, go ahead and cleanse it. You don't have to wait a designated amount of time between cleansings.*

*How do I know when a stone is cleansed?*

*The stone should feel energetically and physically lighter to the touch. Some people say they can clearly see the crystal radiating after clearing, cleansing and charging.*

*What should I do with my uncoded crystals after they have been cleared, cleansed and charged?*

*Find mindful places to keep your stones. Place the crystals around your home, office, or other space in a way that aligns with your intentions.*

### *The bottom line*

*When we care for our crystals, we are caring for ourselves. We are allowing energy that is inharmonious with our lives and intentions to leave in a peaceful and healing manner.*

*Taking these small measures allows us to be more mindful in our interactions with the crystals, with ourselves, and with others. Allowing your uncoded crystals to reconnect with their crystal communities in this way lovingly supports earth and all its beings.*

### *Review of Clearing, Cleansing & Charging crystal tool*

---

*I experience the crystal tool as a lovely moon sound bath, like laying out your crystals in the moonlight or like burying them in the ground. This is just easier. The crystal tool works very gently. It is as if it provides grounding and connection to the cosmos at the same time. Very gentle and like a rippling stream.*

- *legumes*
- *nuts*
- *supplements*
- *spices*

### *Impact on your Cells*

#### *Transmission from Moon Goddess Selena from the Pleiades*

---

*The water in your cells conducts information. It is important to be hydrated at all times so that information flows freely and unhindered. It is important that there are no toxins in you cells as this blocks communication.*

*When your cells begin to communicate with each other after being infused with crystalline water, food & nutrition your cells can begin to heal the body.*

*When there is no communication between your cells imbalances occur.*

*If there is too much or too little light or an incorrect frequency of light an imbalance occurs. If there is too much light or too little light in the cell disease can occur.*

*Receive moon ray crystalline energies directly from me through the 11th dimension to improve your health and prosper on your ascension.*

### *Your Golden Age Brain*

#### *Transmission from Moon Goddess Selena from the Pleiades*

---

*The right and left hemispheres of your brain must work together in complete unison in the coming Golden Age. You must be able to deal with much more information working across your brain stem board and not be controlled by either the right or left hemisphere of your brain.*

*Your brain is in reality like a moon and you should strive to keep it enlightened in 5D and shining brightly at all times. Your physical brain is engulfed in water and follows the 3D phases of the moon as they are experienced on earth. To alleviate any 3D symptoms of the 8 moon phases please eat & drink crystalline energies.*

*Your Golden Age Causal Chakra is placed in your brain enabling you to communicate with angels and other beings.*

#### *Transmission from Moon Goddess Selena from the Pleiades*

---

*Greetings. I am the Moon Goddess Selena from the Pleiades. The way I convey the many phases of the moon to humanity and earth is through the crystalline nature energy in the 11th dimension. Through crystalline energy all beings are helped to develop their crystalline nature energy and I convey the wisdom of the moon through it. More and more people will transition to their crystalline nature energy and begin to receive completely new impulses from the moon. You can contribute by keeping your heart pure and your consciousness clear like the light of the full moon completely without shadows.*

*Look to the sky and see me. I will look towards the earth and see you. You are never alone. I am Selena from the Pleiades and I am with you.*

*"I am happy to connect with you and tell you how whole I feel after taking part in these 3 Golden Age Master classes! I feel like this system has allowed me to live in closer alignment with my True Self. I absolutely love the encoded crystals as a technology because they work with so much intelligence which allows for transformation with ease and grace. I can feel them turn on when I touch them and I am in the Lightship. I am so grateful to You and the Lightship City of Light for sharing this beautiful system and technology. I look forward to further connections and collaborations." - Alysen*

*"I am so happy I signed up for the 5D Energy Frequency Tuning course we just completed! Thank you, thank you, thank you!! It was wonderful to spend time in the 5D Lightship - City of Light, and to meet some of the inhabitants there. It was wonderful to experience all the different healings that were offered and to learn some techniques to help navigate our lives. It was wonderful to learn more about crystals. I had no idea crystals could be coded. So thank you Andromedans, Arcturians, and other inhabitants of the 5D Lightship City of Light. And thank you Charlotte for your gentle heart, your ability to connect to the Lightship and your willingness to share and open this experience to us. I am deeply grateful for what you have offered. Blessings dear lady! Many blessings!!" - Cynthia F*

*"I found the sessions to be extremely powerful and insightful regarding working with my own energies and balancing those with the help of higher dimensional beings. I know that when we do our personal work, we also have a profound impact on the energies of the collective, which, I believe, is the reason we are all here at this time." - Linda S*

*"I would like to express my deepest gratitude in how your courses have helped me balance my personal life. All of my layers have been reengineered and transformed. I have been able to stay centered and embody the frequencies needed for my energetic system to retain stability. If I feel out of sorts I immediately go to the replay's so the Andromedan's can evaluate and regulate any uneven or*

The support offered here in these courses go beyond the time space imprint, the 5D environment in which these courses are delivered are cosmic and palpable.
